Hamid Ziyan

Product Management & Software Testing

United Arab Emirates | hamidziyanofficial@gmail.com | linkedin.com/in/hamidziyan
Portfolio: hamidziyan.vercel.app

PROFESSIONAL SUMMARY

I have worked across product development, mobile application testing, software testing and project coordination. At 4Spares I contributed to an instant automobile spare parts delivery platform: gathering customer and business requirements, testing app features, reporting bugs and supporting improvements to usability. I am seeking roles in product management, software testing, business analysis or IT project coordination in the UAE.

CORE SKILLS

Product management: Product development, Requirements gathering, Product improvement
Software testing: Mobile application testing, Functional testing, Bug identification, Bug reporting, Usability testing
Project coordination: Task coordination, Team collaboration, Issue resolution
Technical: HTML, Firebase
Tools: Git, GitHub, Microsoft Excel
Professional: Communication, Problem-solving, Teamwork

PROFESSIONAL EXPERIENCE

Consultant Product Manager | Apr 2026 – Sep 2026
4Spares Private Limited, Kozhikode, Kerala, India

- Contributed to the development and improvement of an instant automobile spare parts delivery platform.
- Tested mobile application features, identified bugs and reported usability issues.
- Gathered customer and business requirements to support product improvements and enhance user experience.
- Collaborated with team members to improve the spare parts ordering and delivery process.

Project Coordinator | Jun 2025 – Mar 2026
Dawnet Innovations, Kozhikode, Kerala, India

- Coordinated project activities to support timely execution and completion of assigned tasks.
- Assisted with task coordination, issue resolution and communication among team members.
- Supported workflow coordination and project deliverables.

Software Tester | Dec 2024 – Jun 2025
Dawnet Innovations, Kozhikode, Kerala, India

- Tested software applications to identify bugs and functional issues.
- Reported defects and supported improvements to application quality and reliability.
- Collaborated with team members on testing activities and issue resolution.

KEY PROJECTS

- **4Spares** — Instant automobile spare parts delivery platform. Contributed to product development, tested mobile app features and gathered requirements to improve ordering and delivery.
- **FoodCard** — A web-based QR digital menu platform that helps restaurants and cafés showcase their menu, dishes and service information, with dynamic food availability tracking.
- **Bain Consultancy** — Website for a consultancy covering loan services and IT solutions. Coordinated development activities to support client requirements and tested website functionality.
- **Black & White Unisex Saloon** — A modern salon website for booking appointments, exploring services and products, and reading hair care tips.

- **Al Hawaj Builders** — Website for a construction and design company showing its services, projects and gallery. Supported team coordination and project deliverables, and tested web features for bugs and reliability.
